

# 4<sup>th</sup> Workshop on Holistic Analytical Methods for Systems Biology Studies

**17-19 April 2016**

## Topics

- Metabolomics/metabonomics in Systems Biology
- Analytical Technologies for Metabolite Profiling: LC-MS, GC-MS, NMR
- Informatics, Chemometrics, Validation
- Biomarker Discovery: Disease, Drug Efficacy, Embryo Growth, Ageing
- Food authenticity/geographical origin
- Investigation of gut microbiota host-guest interactions

## Confirmed Invited Speakers

Ian Wilson, Imperial College UK  
Maria Klapa, FORTH, Patras Greece  
Emmanuel Mikros, Athens University  
Vasilis Mougios, Aristotle Univ. of Thessaloniki  
Michael Witting, Helmholtz Zentrum Muenchen  
Pietro Franceschi, Iasma FEM Trento
